Terms of Use

The terms of use for this study can be found at:
<http://www.icpsr.umich.edu/icpsrweb/ICPSR/studies/37132/terms>

Information about Copyrighted Content

Some instruments administered for studies archived with ICPSR may contain in whole or substantially in part contents from copyrighted instruments. Reproductions of the instruments are provided as documentation for the analysis of the data associated with this collection. Restrictions on "fair use" apply to all copyrighted content. More information about the reproduction of copyrighted works by educators and librarians is available from the United States Copyright Office.

NOTICE
WARNING CONCERNING COPYRIGHT RESTRICTIONS

The copyright law of the United States (Title 17, United States Code) governs the making of photocopies or other reproductions of copyrighted material. Under certain conditions specified in the law, libraries and archives are authorized to furnish a photocopy or other reproduction. One of these specified conditions is that the photocopy or reproduction is not to be "used for any purpose other than private study, scholarship, or research." If a user makes a request for, or later uses, a photocopy or reproduction for purposes in excess of "fair use," that user may be liable for copyright infringement.

ICPSR PROCESSING NOTES FOR #37132
Collaborative Multi-racial Post-election Survey (CMPS), 2012
DS 1: Public-Use Data

1. **Confidentiality/Disclosure Risk:** In order to protect respondent anonymity and prevent disclosure risk, for the public-use version of the data ICPSR has:
 - a. Recoded the variable **PPAGE** into categories
 - b. Top-coded the variables **PPHHSIZE**, **PPT18OV**, **Q31**, and **Q31A**
 - c. Bottom-coded the variable **PPEDUC**
 - d. Masked all values for variables **CITY**, **FIPS**, **CBSAMET**, **CD112**, **CD113**, and **Q4B_03_SPECIFY**
 - e. Spot-masked demographic information within the variable **Q36A**
2. **Missing Data:** Please note that the data for variable **ORDER_Q9_A** is missing because the corresponding question (Q9A) was not asked for this survey.
3. **Truncated Variable Labels:** Several variable labels are truncated within the data due to program character limitations. Full labels for these variables can be found within the P.I. documentation.
4. **Qualitative Data File:** The variable **Q36A** was exported to a comma delimited (CSV) file which is available for download and can be linked to the dataset via the **CASEID** variable.
5. **Related Data Collection:** This collection is related to the Collaborative Multi-racial Post-election Survey (CMPS), 2008, [ICPSR 35163](#).
6. **Additional Information:** For more information on the Collaborative Multi-racial Post-election Survey, please visit the [CMPS](#) website.

ICPSR 37132

Collaborative Multi-racial Post-election Survey (CMPS), 2012

Variable Description and Frequencies

Note: Frequencies displayed for the variables are not weighted. They are purely descriptive and may not be representative of the study population. Please review any sampling or weighting information available with the study.

Summary statistics (minimum, maximum, arithmetic mean, median, mode, and standard deviation) may not be available for every variable in the codebook. Conversely, a listing of frequencies in table format may not be present for every variable in the codebook either. However, all variables in the dataset are present and display sufficient information about each variable. These decisions are made intentionally and are at the discretion of the archive producing this codebook.

Public-Use Data
